

The 5 Team Leadership Principles for Project Success

Thomas Juli, Ph.D., PMP[®], CSM[®]

Excerpts of presentation at the
NASA Project Management Challenge, Long Beach, CA
February 10, 11:15 AM

This Session is about Project Success

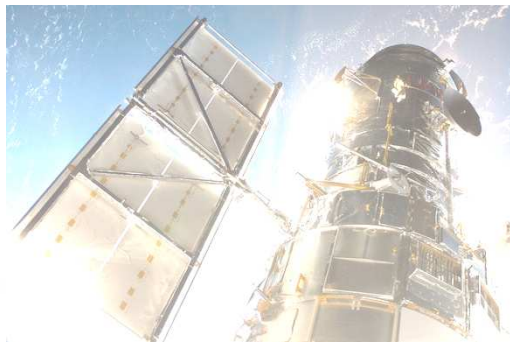

How Do You Lead Your Project to Success?

... by effective project management, i.e., project and team leadership

Effective project management needs to have a solid foundation in project and team leadership.

Without leadership there is no direction in project management.

Team Leadership

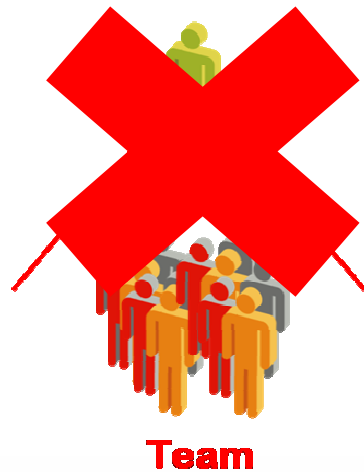

is the decisive factor in improving the chances for a project to succeed.

Without team leadership chances are that a project will be "just another project".

A Project is Like a Mountain Tour

This session is about **you** and **your team**

The 5 Team Leadership Principles for Project Success

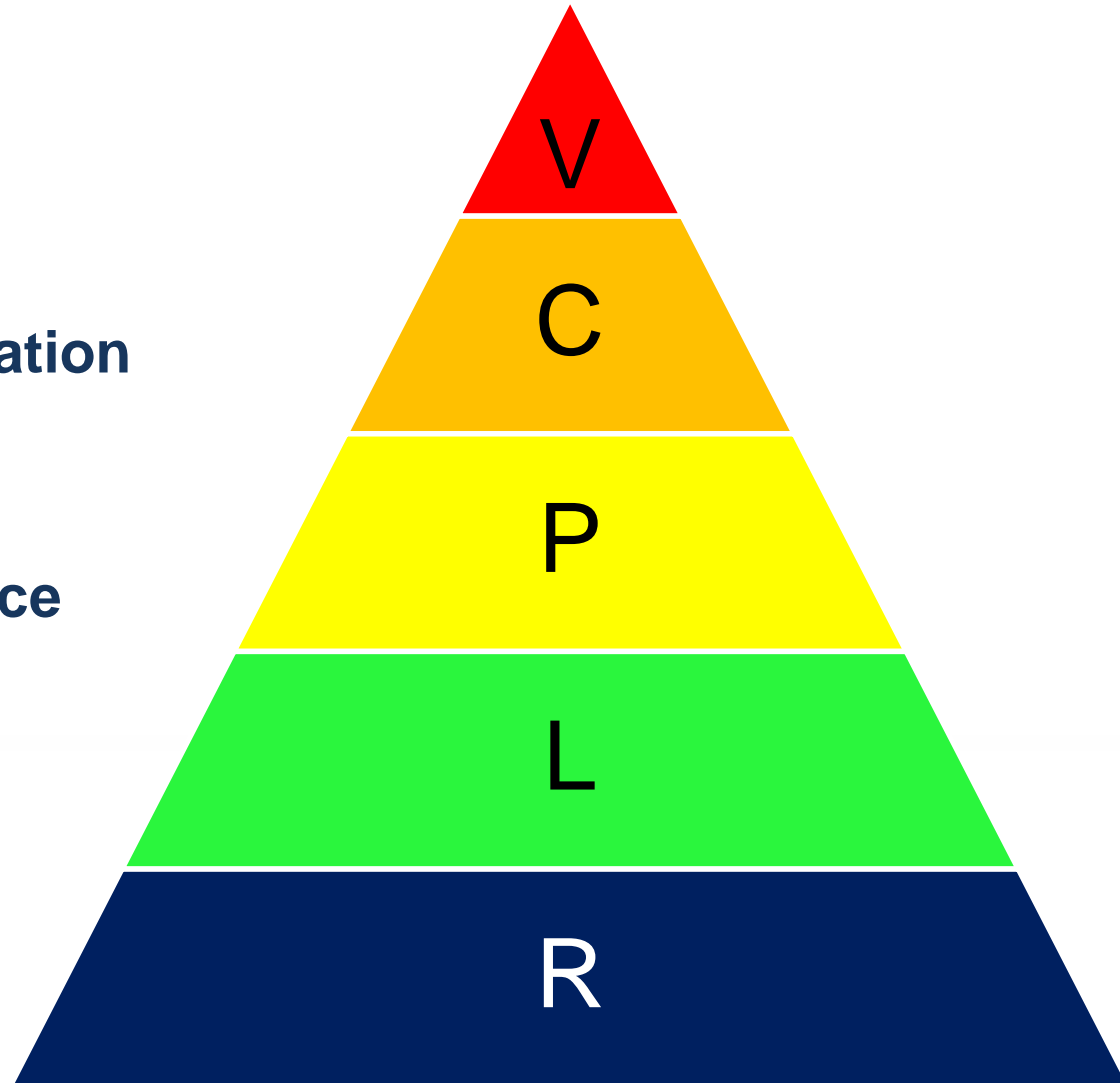

Build Vision

Nurture Collaboration

**Promote
Team Performance**

**Cultivate
Team Learning**

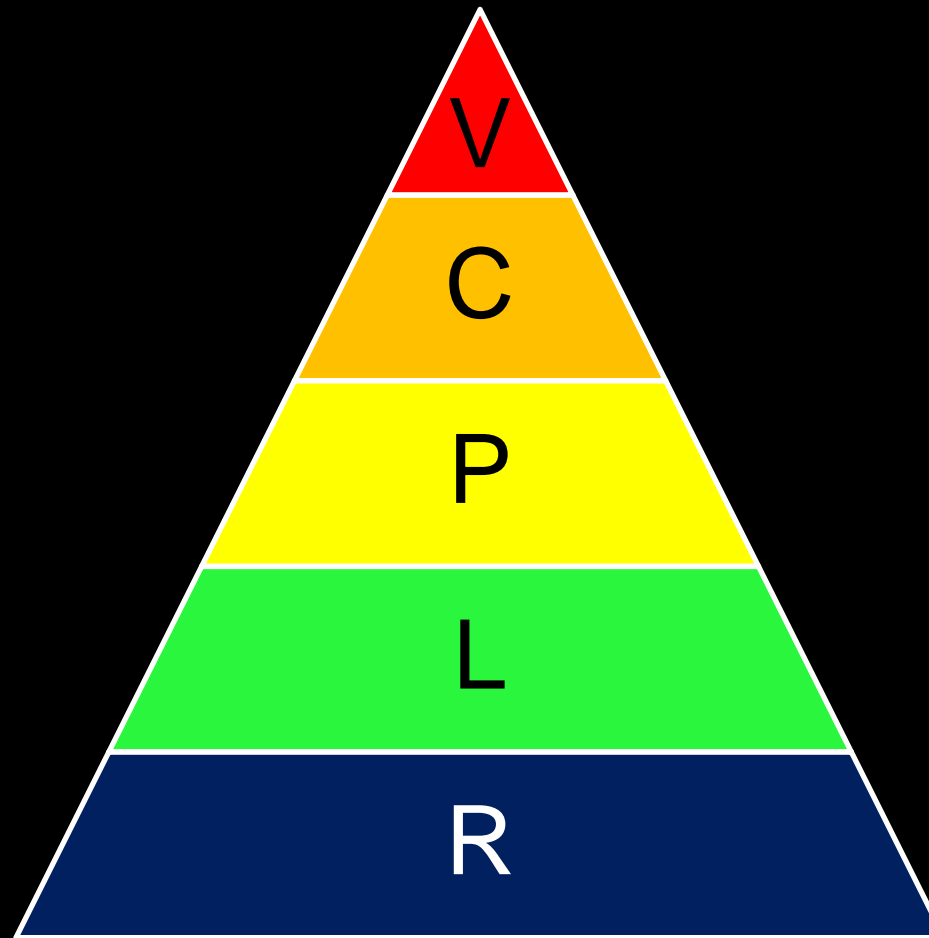

**Ensure Team
Delivers Results**

Project Success & the Image of the Pyramid

The Project Leadership Pyramid & the 5 Team Leadership Principles for Project Success

The Dynamic Project Leadership Pyramid

Each principle has to account for all other principles as one unit

The Project Leadership Pyramid:

- ✓ calls for **holistic leadership**
- ✓ it helps create **high-performance contexts for teams***
- ✓ it thus helps secure **project success.**

* „High-performance contexts for teams“ based on Charles J. Pellerin (2009). How NASA Builds Teams: Mission Critical Soft Skills for Scientists, Engineers, and Project Teams. John Wiley: Hoboken, NJ.
